

Vacuum Infusion Enabler for Epoxy Resins

Clear and Red

- High strength, high temperature, solvent-based vacuum infusion enabler for industrial use
- Developed specifically to hold dry materials onto structural surfaces during vacuum infusion process
- EpokZ crosslinks with epoxy resins, resulting in an integrated structure
- Safely fuses laminating materials to structural core surfaces
- Provides superior holding during forming process
- Allows resin to obtain maximum tensile shear strength
- Proven 80% stronger* than leading alternatives

At Westech, our efforts are focused on producing high quality, industrial strength adhesives. We sell our products in a wide variety of markets at a competitive price. With a profound understanding of our customers' needs and years of industry experience, we continue to develop new products and applications to serve our current and future customers.

EpokZ is intended to be used exclusively for the assembly of fiberglass and foam cores, specifically to hold fiberglass in place while preparing for vacuum infusion with resins.

- Formulated to crosslink with epoxy resin
- Forms a continuous matrix without weakness in the structure
- Suitable for use in any industry employing these materials and the vacuum infusion process

Westech's self contained, environmentally friendly, portable canister system was designed for ease of use. The canister, equipped with a reusable hose and gun, eliminates the need for air-assisted adhesive application systems. This approach significantly reduces worker set up and general maintenance time. Its portability enables you to apply adhesive in your facility as well as on the job site. This product is available in handheld aerosol cans, 9 lb., 27 lb., and 135 lb. canisters.

Technical Data

EpokZ is formulated as a cross-linking vacuum infusion enabler for industrial use.

Technical Data:

- Low VOC, contains No CFCs
- HAPs free (EPA's Hazardous Air Pollutants list)

Performance Features:

- Formulated for rapid application
- Simple clean-up with Westech AR/CCAR adhesive remover
- Applies easily and adheres to a variety of substrates

Safety Recommendations:

Vapors may be harmful to health. Keep away from children. Use only in well ventilated areas or use respiratory protection. The product MSDS should be read and understood before use. Eye protection is required. This product is flammable. Keep away from fire or flame.
